August 24, 2020

Dear Cornerstone Families,

This letter is to provide you more information regarding the potential presence of COVID-19 in our school last Tuesday. Unfortunately, the students referred to in our letter of August 21 today reported that they tested positive for the virus.

If your child was in the same classroom as a student who is now positive for the virus, you will receive additional communication from the school.

As we said in the August 21 letter, these students passed screening protocols to enter the building and displayed no symptoms of the virus on Tuesday. The students and their classmates followed safety protocols at school, wearing face coverings, maintaining social distance, and washing their hands. Frequently-touched surfaces were cleaned during the school day, and desks and chairs were sanitized between classes. The school was cleaned and sanitized that evening.

In addition, this weekend, all classrooms and bathrooms used by those students were deep cleaned and fogged to kill any remnants of the virus. Per state guidelines, we have again contacted the Guilford County Department of Health. We will follow any guidance we may receive from this department.

Please contact the school at (336) 482-3855 if anyone in your household tests positive for COVID-19.

We deeply appreciate the openness and prompt transparency of the family whose students have fallen ill. Our thoughts and best wishes will be with them in the coming weeks.

Thank you for your continued support of and commitment to Cornerstone.

Sincerely,

Joe Caraher

Director
