

Dear Cardinal Community,

I hope everyone is doing well! There are several important items included in this email. Please review carefully.

Presentation from the Zoom Meeting - I have included a PDF of the presentation that was used during the zoom call last evening.

Link to the Zoom Call on 7/27/20 -

Remote Learning Request Form - This form should be completed if you are requesting fully remote learning for your student. If you select remote learning, you will remain in remote learning at least through the 1st semester.

[Remote Learning Request Form](#) *Must be completed by Thursday 7/30/20 @ 8:00 p.m.*

Cohort Appeal Form - Yes, I know that no one has received their school attendance days! However, the work of balancing them while supporting the needs of our families is difficult. So we are asking for any specific issues prior to releasing the specific cohorts. You may appeal your cohort based on two issues:

1. Carpool issues - if you get transportation to school with another family or families, you may request to attend on the same days. If you are making this request, we must have an appeal form from all families involved.
2. Extenuating Circumstances - If you have other extenuating circumstances within your family which you believe we need to consider please complete the appeal form.

All the requests will be entered into a lottery system which will randomize them. We will then work through the issues in the order that they fall in the lottery, with preference being given to carpool issues.

[Cohort Appeal Form](#) *Must be completed by Wednesday 7/29/20 @ 8:00 p.m.*

Middle School Elective Selection Form - Because of the schedule changes required to accommodate cohorts and remote learning, we have reduced our elective schedule to only one elective. Students will be enrolled in this elective for the first semester of the 2020-21 school year. ALL middle school students need to complete the elective form.

[Middle School Elective Form](#) - *Due by Thursday 7/30/20 @ 8:00 p.m.

Sincerely,
Joe Caraher
Director
