### CLASSROOM INFORMATION SHEET FOR 2019-2020

Cornerstone believes that finding the best fit between students and teachers is an important part of providing a high quality education. Input from parents about a child's learning characteristics is invaluable in making good placements. All class placements will be determined by school administration based on any educational requirements, the information provided on this sheet and input from your child's previous teachers. Because class placement is a complex process involving many variables, it is impossible to guarantee specific requests. We ask that you complete this form as fully and completely as possible so we can make the best decision possible.

*Student's Name* \_\_\_\_\_ *Current Grade/Teacher* \_\_\_\_\_

List any academic areas of concern you have about your child.
